SUMMARY

Results-driven Frontend Developer with 3 years of experience building and optimizing user-centric, high-performance web applications. Proficient in the modern JavaScript ecosystem HTML 5, CSS 3 and passionate about creating responsive, accessible, and SEO-friendly interfaces. A collaborative team player dedicated to writing clean, maintainable code and following best practices to deliver exceptional user experiences.

Frontend Web Developer | Cyrus Global Tech.
Abuja Nigeria | 2022 – 2024

- Assisted in the development and maintenance of company websites using HTML, CSS, and JavaScript, ensuring they were fully responsive and met design specifications
- Developed and maintained responsive, user-centric web applications for a diverse client portfolio, resulting in a 25% increase in mobile user engagement.
- Integrated with backend RESTful APIs using Axios to dynamically display data, handle user authentication, and process form submissions.

Graphic Designer | Terraincore Limited|
Abuja Nigeria | 2024 – 2025

- Led the end-to-end rebranding initiative for a legacy product line, including the creation of a new logo, comprehensive brand style guide, and all supporting collateral, revitalizing the product's market image.
- Conceptualized and executed a wide range of design assets, including marketing collateral (brochures, flyers, banners), social media graphics, email campaigns, and presentation decks, aligning with brand guidelines.
